EDUCATION

Humber Polytechnic *Etobicoke, ON*
Advanced Diploma: Game Programming Sep 2023 - Present
Graduation Date: April 2026
Relevant Courses: Game Engines 1-5, Data Structures, Game Design, Object Oriented Design & Analysis, GPU Programming, Computer Graphics, Artificial Intelligence, Computer Networking, Game Physics 1-3

WORK EXPERIENCE

Program Design Associate Intern April 2026 - September 2026
Urban Expeditions Toronto, Hybrid

- Conceptualized and designed a location-based gamified exploration experience, defining core gameplay loops, progression systems, and player engagement mechanics.
- Rapidly prototyped and documented gameplay concepts to evaluate feasibility and user experience, influencing the project's long-term direction.

PC Builder & Parts Advisor June 2022 - Present
Contractor Vaughan, ON

- Architected high-performance hardware configurations by analyzing client budgets and technical requirements to deliver optimized, custom-built systems.
- Ensured peak system reliability and performance through precision assembly, thermal optimization, and rigorous driver stress-testing resulting in 100% functional delivery and ongoing technical support.

PROJECTS

Gameplay Programmer
Possession Protocol (Unreal Engine 5)

- Developed multiplayer systems, player mechanics, and AI behavior using BluePrints, C++, and Behaviour Trees, delivering a smooth and interactive gameplay experience
- Integrated gameplay features with art assets by collaborating closely with 3D artists in a fast-paced production cycle, resulting in cohesive and polished in-game systems
- Debugged gameplay and stability issues by testing and analyzing program structure, greatly reducing bugs, improving stability and performance, and granting smooth gameplay
- Demonstrated project quality by presenting at the Level Up Showcase in Downtown Toronto, resulting in industry exposure and recognition

Game Developer
Knuckles' Gravity Dome (Game Maker)

- Built core gameplay systems including physics and level mechanics by designing and implementing key features, creating a fully playable game experience
- Led cross-disciplinary development by managing game design, sound design, and level programming, resulting in a cohesive and well-rounded project
- Delivered a complete game under constraints by developing within a 1 Button Game Jam scope, accomplishing a polished and finished submission

SKILLS

Core Strengths: Microsoft Office, Gameplay Systems Development, Debugging & Testing, Rapid Prototyping, Systems Thinking, Iterative Development, Davinci Resolve, Photoshop
Programming & Engines: C++, Unreal Engine, Unity, GameMaker
